Purpose

This data is being provided on the Internet to make the information more easily available and accessible, not to warn about any specific individual. This Web site allows the criminal justice community to promote public awareness concerning the potential threat that sex offenders pose to Wisconsin's citizens.

Sex Offenders have always lived in our communities, but it was not until the passage of the registration law in 1997 that law enforcement was authorized to notify the public of a sex offender's whereabouts. Furnishing the public with information regarding convicted sex offenders is a critical step towards encouraging the public to develop constructive plans to prepare themselves and their families. Additional information about ways to reinforce personal protection is available in our on-line publications and on the Department of Corrections.
